PRABIN SHAH

Bhelhi, Sarlahi, Nepal | +977-9812186293
prabinshah919@gmail.com | Civil Engineer

PROFESSIONAL SUMMARY

Motivated Civil Engineer with hands-on experience in hydropower design, research, construction monitoring, and technical engineering tools. Strong academic background from Kathmandu University with proven leadership through major roles in university organizations. Skilled in surveying, drafting, and technical analysis, with hands-on internship experience.

EDUCATION

Nepal Engineering College — March 2026- Present
M.Sc. in Construction Management

Kathmandu University — December 2020- July 2025
BE in Civil Engineering
GPA: 3.44/4.00

Uniglobe Secondary School — 2017- 2019
+2 Science
GPA: 3.46/4.00

Nightingale International Secondary School — 2017
SEE
GPA: 3.75/4.00

RELEVANT EXPERIENCE

Green Engineering and Solution — July 2026 - Present
- Drafting works in Civil and Structural Components

Hydro Tunneling and Research Pvt. Ltd. — July 2025 - Present
- Hydropower design assistance, technical drawings, and coordination.

Site experience of residential building construction — November 2025 -April 2026

Research Internship at Kathmandu University Rock Mechanics & Rock Mechanics Lab — February 2023 - March 2024
- Worked on underground structures research and experimental analysis on KU Research Tunnel.
- Performed tests on UTM.

Internship at Rahughat Hydroelectric Project (40 MW) — February 2025 - March 2025
- Assisted in construction monitoring and reporting.

ADDITIONAL EXPERIENCE

Leadership

- President at Kathmandu University Civil Engineering Club (KUCEC) (2024/2025)
- Coordinator of Kathmandu University Youth Red Cross Circle (KUYRCC) (2023/2024)
- Vice Coordinator of Sankalpa'24
- Executive Member at KUCEC (2022/2023)
- Treasurer of Kathmandu University Indoor Games Club (KUIGC) (2023/2024)
- Volunteered in International Confenece Surung-I

Projects

- Physical Model Study of Kalanki Underpass
- Physical Model Study of Isolated and Combined Footings
- RUM Project of Pharping Hydropower to convert into Pump Storage Hydropower.
- Final Year Project on "Potential Study of Hewa-A Small Hydropower Project".

SKILLS

Softwares: Civil 3D, AutoCAD, SW_DTM, SW_Road, SAP 2000, HEC-RAS

Computer: Microsoft Excel, Word, PowerPoint

Language: English, Nepali, Maithili, Hindi
